# CRAFTED TO UNEXPECTED

---

KGM®, a modern mobility brand fuelled by the luxury legacy of SsangYong. This acronym changes what we stand for and sets us on the path towards advanced electrification, autonomous driving, and greater mobility for all.

## MUSO. MEANS. MORE.

Like all KGM vehicles the Musso is Crafted to Unexpected.

Korean Grade Mechanics conspire with unexpected power and scale to deliver a King-Size Grunt Monster. Designed with a generous crew-cab body style and large tray, the Musso carries passengers and cargo comfortably and securely. Featuring both a powerful towing capacity and one of the largest cabin interiors in its class, the Musso's spacious design hits the sweet spot between functionality, practicality and performance.

MUSO

## POWER. PERFORMANCE. PANACHE.

Musso is tough, but not rough. This beast of a Ute delivers uncompromised power inside a comfortable and spacious body design.

The Musso boasts a 3.5-tonne towing capacity and options for a 1.3m or 1.61m tray length. A four-wheel drive system ensures optimal distribution of power to the front and rear wheels according to road and driving conditions, ensuring maximum traction and safety, and an optimised engine delivers higher efficiency over previous models, maximising both fuel efficiency and acceleration.

\*Accessorised model shown.

FEATURES

MUSO

## HARNESS. HIGH-SPEC'D. HAPPINESS.

The Musso might be a powerful work vehicle, but that hasn't stopped us from adding features you'd normally expect to find on a premium passenger car. Equipped with a convenient push-button start and two smart keys. Accessible steering wheel controls, and a vibrant 12.3" digital dashboard display for precise and reliable information at a glance. Bluetooth and Apple CarPlay® for seamless connectivity. As well as a dual temperature zone system to ensure personalised comfort for all passengers. This technology is reserved for the higher spec models.

## MUSO

---

### MUCH. MORE. MAXIMISED.

What makes the Musso different?  
It punches well above its price point in every area you need. By combining the practical utility of a powerful and hard working ute, with the comfort and gadgetry of a premium passenger car, the Musso becomes a solid solution for those who need a vehicle that does it all.

---

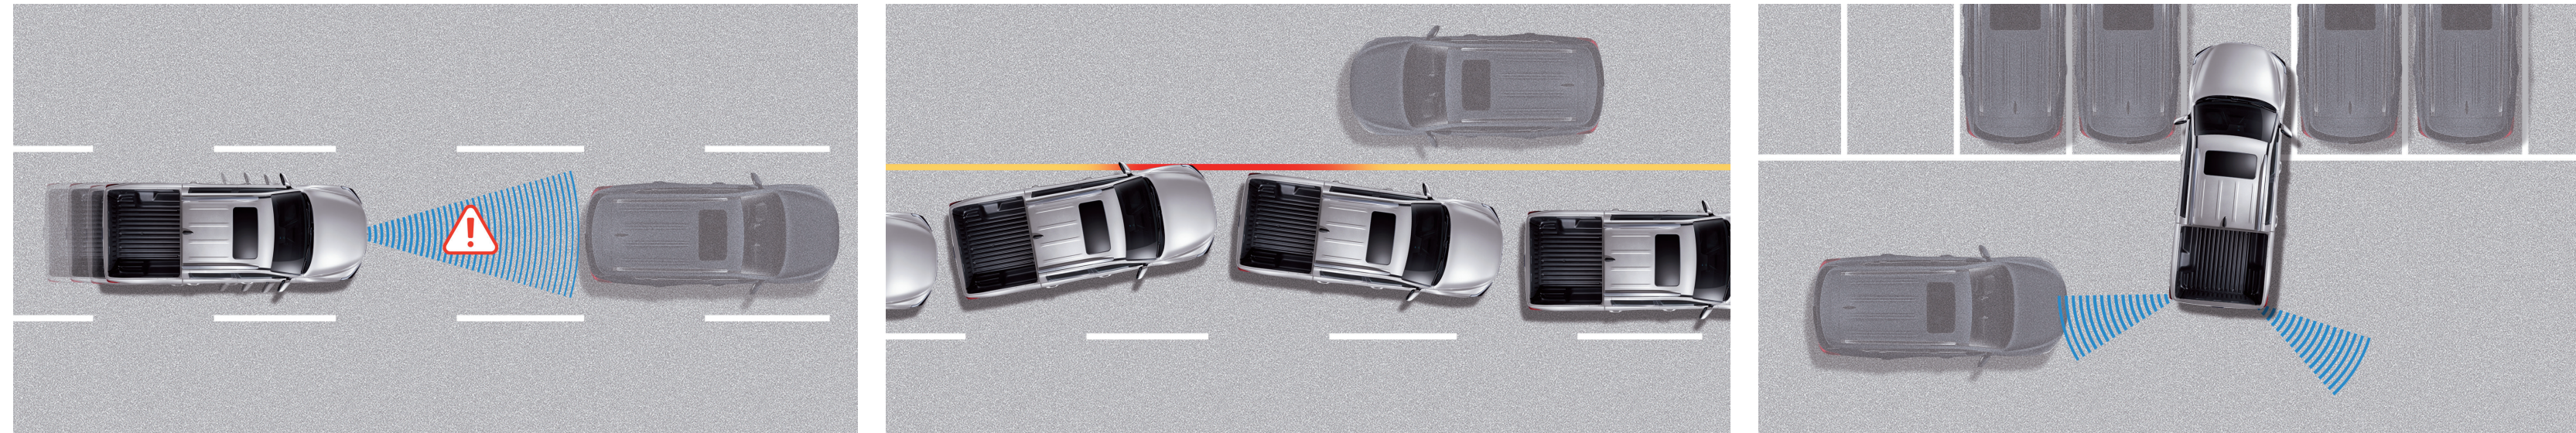

---

### MAGICAL. MULTI-TASKER.

From the beginning, the Musso was designed to cater to a demanding work-life balance with effortless fluidity. With the heart and body of a powerful ute to handle sustained work loads, and the modern comfort of its spacious cabin, both work and home life's most demanding tasks are handled with care and strength. The Musso is, without a doubt, an iron hand inside a velvet glove.

# MUSSO

## PROTECTION. POWERED BY PRECISION.

Drive the Musso and experience safety that goes beyond expectations. Designed with your safety as the top priority, the Musso provides an advanced suite of safety features to keep you and your passengers protected on every journey.

Maintain control with the Electronic Stability Program (ESP), which enhances vehicle stability by detecting and reducing loss of traction. Drive with peace of mind knowing the Active Rollover Protection (ARP) actively prevents rollover scenarios by monitoring and adjusting vehicle dynamics.

Tackle steep descents effortlessly with Hill Descent Control (HDC). Enjoy superior grip and handling with the Traction Control System (TCS). Stay aware of your surroundings with Lane Change Warning (LCW). Reverse with confidence as Rear Cross Traffic Warning (RCTW) detects and warns of cross traffic approaching from either side. Navigate tight spaces with ease using rear parking sensors. Ensure precision parking with front sensors that help you avoid front-end collisions in close quarters.
